

Consultancy Contracts Registry

Below is a framework agreement register for consultancy services that has been created by the North West Centre of Excellence and has the potential to save local authorities in the region time, effort and money.

It provides local councils with a one-stop shop where they can instantly view contracts held by other agencies and spot opportunities to join existing agreements.

The information for every agreement listed covers the agreement reference, duration, a brief overview of the service, the management approach and the name of the suppliers. By sharing contract information, councils can use their combined buying power to gain a better deal from suppliers.

With all the Agreements below we would encourage the use of 'mini competitions' to determine the Supplier who will provide 'best value for money'. The process for mini competitions is as follows

1. Invite all Suppliers who could provide the service to submit their proposals
2. Set a fixed time limit to receive the proposals. This should be of sufficient duration to allow the proposals to be submitted taking into account the complexity of the services required.
3. Seek proposals for fulfilling the requirement including agreement to any special terms, travel and/or subsistence proposed by you
4. State if charge is to be quoted on a fixed price or hourly rate basis
5. Advise if reverse auction is to be held
6. Evaluate the proposals received and notify all invited service providers of the outcome
7. Place the order with the most economically advantageous offer

Existing Consultancy Agreements – open to all

Appendix 3 - Management Approach: Glossary

FCM - Full Contract Management

A service offering the full service of the Lead Organisation's commercial team and covering initial supplier engagement, subsequent periodic meetings, dispute resolution, contract amendment/variations administration, MI management and distribution and monitoring of performance against KPIs.

ICM - Intermediate Contract Management

A service offering part of the resources of the Lead Organisation's team and covering contract amendment/variations administration and dispute resolution. Individual organisations joining the contract arrange their own meetings, receipt of MI, monitoring of performance against KPIs and Service Levels.

SM - Self Managed

Each organisation using the Framework Agreement/contract will provide their own commercial support to manage all aspects of a contract formed under the Framework Agreement/contract. The Lead Organisation only enters into the Framework Agreement/contract for other Public Sector body use.
